(54) Title: GARMENT HAVING THIGH PORTION

(54) 発明の名称: 股部を有する衣料

(57) Abstract: A garment having a thigh portion worn in contact with the skin; wherein a second crotch strip for receiving and holding an absorbing article is provided on the inner surface of a stretchable crotch strip of the garment body, the garment having a thigh structure in which the above second crotch strip is attached to the garment body at its front and rear end edges, and is attached to the crotch strip of the garment body at at least part of its center line with the both right and left edges of the second crotch strip not bonded to the garment body and kept free, whereby providing a garment having a thigh portion which can constantly and positively hold the absorbing article at a specified position of the thigh portion of the garment, can be closely fitted to the vulva slit, is not likely to get sweaty while worn, and provides a good appearance and wearing feel after the absorbing article is fitted on.
